¹ Plaintiffs respectfully request that the Court consider restoring one week for Plaintiffs' Reply In Support of Class Certification. At the last case management conference, the schedule was modified to provide Defendants an additional week for their class certification opposition. With the additional week Plaintiffs request, Plaintiffs' Reply would be due on November 26, the Monday following the Thanksgiving holiday. Plaintiffs would prefer this schedule to the current, 3-week schedule due to the volume of information that Defendants can be reasonably expected to submit with their class certification opposition, their expert report(s) and other filings. If the Court were inclined to accommodate this request, however, Plaintiffs note that it might leave the Court with insufficient time to review the class certification briefing prior to a December 10, 2012 hearing date. Plaintiffs therefore suggest the class certification motion be heard on December 17, 2012, or another date convenient to the Court.
